ABOUT THE COLLEGE

In the Year 1965, the Government of Tamil Nadu started Periyar E.V.R College in Tiruchirappalli, the central part of Tamil Nadu, naming it after the great thinker and social reformer, Periyar E.V. Ramasamy who generously donated Rs. 3.5 Lakhs and 9.65 acres of land for the exclusive purpose of imparting higher education to the people in and around Tiruchirappalli. The unique feature of this college, which is inconsonance with the intent of Periyar, is that it caters to the academic needs and aspirations of the students belonging generally to educationally, socially and economically backward sections most of whom are first generation learners. In the annals of the college, the academic year 1998-1999 proved to be significant on many counts. The college became co-educational and became autonomous, resulting in a sea change in the aims, aspirations and achievement of the institution. Presently the college is offering 15 UG & 14 PG programmes, 10 M.Phil programmes and 10 Ph.D programmes with around 4500 students.

TRAINING AND PLACEMENT CELL

Training and Placement cell is an integral part of the college. The cell is sensitized to function all through the year towards generating placement and training opportunities for the students. Training activities are organized throughout the year in an effort towards preparing the prospective students for the campus selection programmes. The Cell is also contacted training programmes, workshops and awareness programme sponsored by various funding agencies.

THEME OF THE PROGRAMME

Research projects these days are gaining an unprecedented focus and attention from research community. The main challenge here is to identify a researchable area/ topic in any academic discipline that has an ample scope to be explored in terms of research projects with significant applications. A project proposal is a detailed description of a series of activities aimed at solving a certain problem. Without project funding it would not be possible for college teachers to accomplish goals. Writing clear, through and targeted project proposals is therefore an essential to achieve success. Mastering the art of writing a project proposal required unified approach to project management. The project proposal should be a detailed and directed manifestation of the project design. It is a means of presenting the project to the funder in a format that is immediately recognized and accepted. Finding a methodology to adopt to get solutions for state-of-the-art-challenges in such areas is the most valuable part of the research work. Once you have begun your research project on such areas, it helps

you to remain on track of the area. The programme is intended to motivate the young faculty in science and social sciences with interdisciplinary research projects.

TARGET AUDIENCE / PARTICIPANTS

Target audience / Participants of the Capacity Building programme is research scholars and faculty members of colleges and universities.

REGISTRATION FEE

Registration fee of Rs. 250/- will be charged. Participants can pay your registration fee through online payment / directly deposit in the account Name:

Principal, Training and Placement Cell,

Periyar E.V.R.College, Tiruchirappalli
